# Our Products

## GREASE TRAP SUPPLY & INSTALLATION

Grease management systems are designed to prevent oils, fats & grease from entering your drainage system. These wastes if not properly processed will cause a blockage in your drains and pipework.

## AUTOMATIC DOSING SYSTEM

The Automatic Dosing System (ADS) is an electronically-operated dispenser that accurately and consistently applies your choice of specially-formulated water treatments to your water feature. The automatic dosing process eliminates the guesswork and routine associated with adding water treatments manually.
